* variable to speer length

DESCRIPTION

Spearing machine to spear farmed mackerel from 300 to 500 grams on a metal rod at equal and optimal distance for curing or smoking. Please check our website and product matrix on the main folder for more information. When ordering, please provide STEEN with the length of your spears and air connection available. Also inform us which mackerel species (preferably the scientific name) you would like to process including capacity, general width and length.

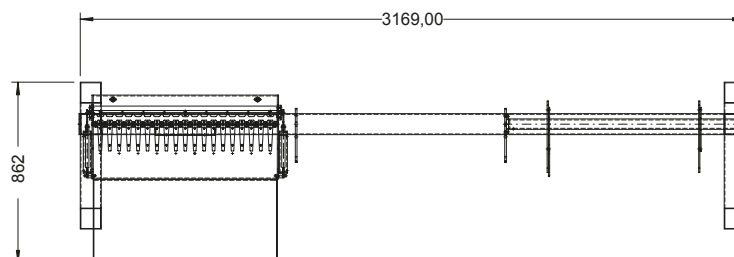

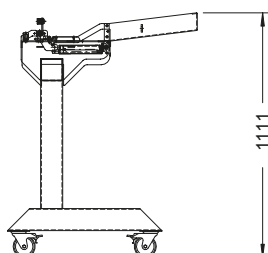

Máquina para el proceso de caballas de 300 a 500 gramos, colocadas en una barra de metal, a una distancia igual y óptima para curar o ahumar. Consulte nuestra web y nuestra gama de productos en la carpeta principal para obtener más información. Al realizar el pedido, proporcione a STEEN la longitud de sus barras y la conexión de aire disponible. También infórmenos de las especies de caballa (preferiblemente el nombre científico) que desea procesar, incluidas la capacidad, el ancho general y la longitud.

Máquina com tridente para apanhar cavalas entre 300 e 500 gramas num varão metálico e à melhor distância para curar e defumar. Consulte o nosso website e matriz de produtos na pasta principal para mais informação. Ao encomendar, indique à STEEN o comprimento dos seus tridentes e ligação de água disponível. Informe também que espécies de cavalas (de preferência o nome científico) desejaria processar, cada uma delas indicando a capacidade, largura geral e comprimento.
